- 49 Niagara Wine Country

This souvenir map is intended to be used for entertainment purposes only. The aim of this artist's rendition is to characterize a vast and complex region by compressing a handful of highlights into a geographically distorted two-dimensional image. This map is not to scale, and attractions that appear to be close to each other may in fact be many kilometres apart. No attempt should ever be made to walk between featured attractions based on their apparent proximity to each other on this map. Not all of the attractions will be visited or even visible from a Niagara tour bus or while walking around during free time away from a Niagara tour bus.
